Mr Boris Schneider, redakteur Power Play

SUBJECT: Arcadegame for the Commodore Amiga
called Skate of the Art

Dear Sirs,

On the PCW show in Londen this year we informed you about a new skateboard game called 'Skate of the Art'. This game was on display at the Linel stand. We promised you to send some slides with screen-shots of the game and a demodisk for the Amiga.

Skate of the Art will be released by Linel Switzerland in the middle of November 1988. We hope that you can use this material for your magazine(s).

Yours sincerely,

Erik van Eykelen
