Dear Erik,

It was a pleasure meeting you at the PCW Show.

As I told you, we are looking for some new programmers. We hope you are still interested in programming.

If it could be of interest for you to work together with us, then please send me a demo of your work and a short note, what specially you are interested in for programming.

We are interested in both, a final programm and also programmers working out one of our ideas.

Do not hesitate to contact me if there are some questions that I could answer.

I look forward to see you soon in our successful team.

Yours sincerely
LINEL
