Date: December 7, 1993

Dear Sir/Madam,

Re: XaPPs 'C' Development Kit

As a keen 'C' programmer, I was interested to see on page 140 of the MediaPoint manual that you can supply a free MediaPoint XaPP developer's kit.

Working in the Technical department brings me into contact with many different hardware devices that might possibly be usable in MediaPoint with a suitable XaPP which I might consider writing.

Could you please therefore send me the appropriate XaPP Development Kit. Of course if I manage to write a useful XaPP, I will pass it on to you for possible inclusion with later versions of MediaPoint. Incidentally, do you have a list currently available XaPPs and XaPPs that are being developed?

Assuring you of our best attention at all times.

Yours sincerely,
For SDL (UK) Ltd.

Carl Revell
Technical Support Supervisor.
