MORE INFORMATION

Despite the fact that every day an increasing number of organisations is entering the world of the Internet, not all organisations in the polymer industry are currently able to access the Web. Especially for these organisations, the 1st Polymer Market has the perfect solution: its fax facility service. This service allows anybody to place an offer or inquiry on the 1st Polymer Market.

For those organisations that prefer to remain anonymous to the members and visitors of the site, the 1st Polymer Market also provides a unique mailbox service system. This allows buyers and sellers to place an offer or inquiry without the company's name being made available to the public.

The 1st Polymer Market offers you the possibility of placing an advertising banner on the web site, giving your company major competitive advantages including:

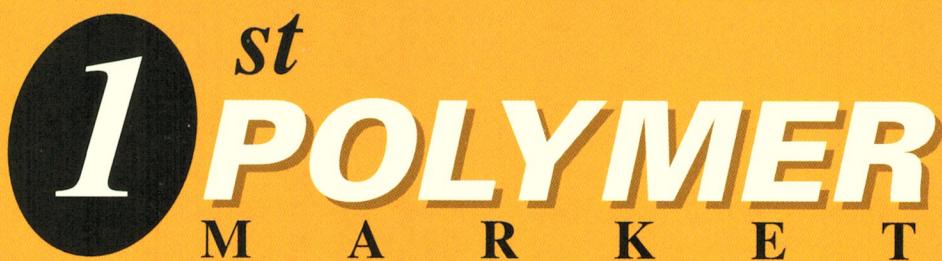

- promotion of your company to a worldwide and branch-related audience;
- drawing traffic to your own home page through a hyperlink, leading prospects directly to you;
- directly targeting companies who have qualified themselves as players in the polymer industry.

For companies seeking an effective presentation on the Internet, B&H Development Services can also develop web sites, varying from a single page with a corporate profile to a multi-page web site including extensive database technologies. The sites can be hosted on the B&H server. By combining the best in web site design technology and plastics industry expertise, it will bring your organisation the results it seeks from the Internet!
